Environmental Policy Statement

CAEVEST PRIVATE LIMITED

Prepared by HEALTH & SAFETY MANAGER

SEPTEMBER 2020

Environmental Policy Statement

Caevest was established in 2010 and is a team of commissioning, construction, marine, oil and gas professionals. We specialize in completions, commissioning, and start-up support.

Caevest operates a management system in line with the requirements of ISO9001 which encompasses Quality, Health and Safety and Environmental (QEHS) issues. Our Health and Safety and Environmental Management Plans are maintained at each Project site we work in.

Our main objective is:

To to reduce the impact of Caevest's operations on the environment. We will strive to improve our environmental performance over time. Our goal is to promote sustainability and environmental awareness at all levels within the company.

We focus on the following objectives to achieve this overall goal.

- To promote a culture where the effective operation of our QEHS system is the responsibility of all Caevest's staff, suppliers, and contractors.
- Comply with all applicable environmental legislation and sustainability commitments.
- To adhere to our environmental policy in all work carried out by our staff minimizes the amount of unnecessary resources to prevent pollution and protect the environment by incorporating energy efficiency measures into Caevest facilities and promoting efficient energy use in all areas of business activity.
- Preventing pollution and reducing consumption of resources through waste management strategies that promote waste minimization re-use, recovery, and recycling, as appropriate.
- To ensure the Caevest lead on the QEHS system is provided with the authority, resources, and tools to co-ordinate Caevest's efforts to ensure the Quality and Environmental System is maintained through continual review and improvement.

Policy review & implementation

It is the responsibility of the Managing Director to review, improve and measure the Quality Management System on an ongoing basis.
